

Exhibit 13

Declaration of Randy Flores Ortiz

1. My name is **Randy Flores Ortiz**. I am currently incarcerated at the FMC Butner at FCC Butner, housed in Unit 4A. My Bureau of Prisons Register Number is 55653-177.
2. I am 36 years old.
3. I am currently serving a 327-month sentence for possession with intent to distribute methamphetamine. My expected release date is 2040. I have no convictions for violent crimes.
4. I was diagnosed Non-Hodgkin's lymphoma in 2018, when I was already incarcerated. I have been treated with chemotherapy and am currently undergoing radiation therapy. It is my understanding that I am immunocompromised because of my treatment.
5. I have type II diabetes. I take metformin for my diabetes.
6. I am housed in a cell with a cellmate who is also undergoing cancer treatment. Everyone on my floor has cancer. There are about 240 people housed on my floor. Most cells have two people in them.
7. People who are being brought into FCC Butner are being housed on my floor while they are quarantined because they are being brought to the facility. This has been true since early April. On my side of the unit, which is 32 cells, there are currently two people in quarantine.
8. My cell is about 8' x 10'. In my cell, I can't maintain a 6' distance from my cellmate. We have a toilet, sink and shower in the cell.
9. Meals and medications are brought to my cell. I believed the same people who bring me my food and medication bring them to the cells where people are quarantined and to the rest of the housing unit.

10. On May 20, we were informed that the lockdown of BOP would last at least until the end of June.

11. I go out of my cell for radiation and oncology appointments. Next week I will start going Monday through Friday. When I go to an appointment, I use an elevator that is also used by other prisoners. On one occasion, I rode the elevator with a man who later tested positive for COVID-19.

12. I am allowed out of my cell to make phone calls approximately two times a week.

13. The people on the 5th floor are very sick and some are in hospice. The people on the 3rd floor are there for ambulatory surgeries. Those floors are the same size and set-up.

14. I have not been tested for COVID-19 and I do not know of other people in my housing unit being tested.

15. I have a safe, secure and verifiable place to live if released. I can live at my home in San Angelo, Texas with my mother. I would be able to self-isolate in the house 14 days and I would have access to medical care if I needed it. I would not require any additional services or programs (such as substance abuse counseling or mental health treatment) if I were released to home confinement.

I, Maria Morris, certify that I reviewed the information contained in this declaration with Mr. Ortiz by telephone on May 21, 2020, and that he certified
